RUBBER PRODUCTS

ONE-STOP BRAND FOR ALL TRANSFORMER SEALING & ALLIED PRODUCTS

As one of India's leading manufacturers of rubber gaskets, we produce various rubber products, including standard, food-grade, abrasion-resistant and high-performance rubber sheeting. We can produce single units or large quantities using advanced CNC profile cutting gear and provide a same-day service in case for urgent delivery requirement.

Nu-Cork offers die-cutting, slitting, and other fabrication services to ensure that customers receive rubber gaskets or rubber material which meets their standards.

WIDE RANGE OF RUBBER PRODUCTS:

- Sheet
- Strip
- Beading
- Moulded and extruded gaskets
- Bird Guard
- O' Rings
- Anti-Vibration Pads
- Cord

RUBBER GASKET VARIANTS

- Nitrile (NBR)
- Hydrogenated Nitrile Rubber (HNBR)
- Chloroprene (Neoprene)
- Fluorocarbon (FKM/FPM)
- Silicone
- Fluoro silicone - (FVMQ/FMQ)
- EPDM

Nu-Cork specializes in customizing rubber gaskets and seals through precision tools-cutting and water jet processes, which reduce production costs and response times for a wide range of applications and industries all over the globe. Rubber gaskets fill the space between two or more mating surfaces to prevent leakage (of air, chemicals, gases, or liquids) from/into the joined items while they are compressed.

APPLICATION

- Transformers
- Switchgears
- CT/PTs
- GIS
- Railways
- Control Panels
- Automobiles
- Oil & Gas
- Commercial Use
- Insertion (Metal/Fabric)
